

**Camp Director Emagination Computer Camp
Bentley University, Waltham, MA**

Camp Director Needed!!! Many camp professionals wonder if a technology camp can really provide children with the benefits of traditional summer camp? The answer is yes and we encourage you to find out for yourself how rewarding a summer at Emagination Computer Camps can be. Our program brings together like-minded kids from across the country and around the world and encourages them to venture outside their comfort zone, explore new activities and make new friends.

As camp director, you will manage a team of individuals interested in helping children develop the technical and creative skills that are becoming necessary to succeed in today's world. Your greater responsibility is creating an environment that encourages creativity, personal development, social development, self-confidence, independence and having FUN!!! In addition to technology workshops, campers explore outdoor activities and new adventures that include talent shows, scavenger hunts, pool Olympics and much more. You will manage day-to-day operations and create a summer camp experience that campers and staff will talk about for years to come. In addition, you get to explore some of the best cities in America -- Atlanta, Boston, Chicago, Philadelphia or New York.

Emagination's competitive compensation package includes a weekly salary plus room and board (worth over \$350/week and includes weekend and off duty housing and meals)!! We also provide you transportation to and from the local airport at the beginning and end of camp. Paid internships are also available!!!
